

# MY-TEST VACUUM GAUGE

## APPLICATIONS

Strong liquid filled housing for dynamic loads  
or high vibration environments

For aggressive, non viscous and non crystalizing  
gaseous and liquid products

Functions in high temperature  
environments

Process Industry:

- Chemicals/Petrochemicals
- Power Generation Mining
- Environmental Technology
- Mechanical and Plant Engineering

## SPECIFICATIONS

316 L stainless steel body

Vertical connection

G1/4 B (male), 14 mm flat

Movement: Stainless steel

Aluminum dial, white, with

scale and number black / red according to unit

Non-contractual images 02/2024
